

Café Yumm! restaurants are famous throughout the Pacific Northwest for delightful food prepared fresh and served *FAST* with sustainable, locally sourced ingredients. The menu includes a variety of signature Yumm! Bowls® made with organic beans, rice, Deluxe Toppings, and the brand's obsession-worthy Yumm! Sauce®. The cozy, casual restaurants also feature grilled wraps, unique salads, glazed skewers, award-winning cookies, a kid's menu, and catering. The crowd-pleasing menu is beloved by vegans, vegetarians, and omnivores alike with plenty of gluten-free, paleo, and keto options.

Their popular Yumm! Sauce has gained a fanatical following since 1993. This unique, all-purpose condiment is crafted with natural ingredients including almonds, garlic, and garbanzo beans. Fans around the world love the secret recipe as a dip, spread, and dressing. Available for purchase in the restaurants or by mail order online, the sauce can also be found in grocery stores across Oregon, Washington, and California.

Leading with a mission to "*Nourish humanity and the world,*" Café Yumm! has received numerous awards for eco-friendly values and operates with a social, environmental, and economic Triple Bottom Line philosophy. From installing solar panels and electric car charging stations, to removing trash cans from dining rooms and instead offering bus tubs for sorting washable dishes, food scrap compost, and recycling, the Northwest restaurants place sustainable business practices at the forefront.

Ingredient quality and environmental impact are key factors in sourcing decisions. Café Yumm! uses local, organic, and non-GMO products whenever possible. The restaurant partners with local farms, producers, and distributors in the Northwest to procure the most vibrant ingredients grown in the region. Over 50% of the food on their menu is certified organic, including beans, rice, salad greens, salsa, tofu, tempeh, and yogurt. They also serve certified organic, fair trade teas and a propriety blend of locally roasted organic coffee.

Café Yumm! is a longtime supporter of environmental nonprofit organizations, health and fitness programs, and food banks across the Northwest. In addition to donating 307,000 meals through financial contributions between 2015-2019, the company donated 95,000 pounds of dried Oregon-grown black beans in 2019 alone (which provided about 950,000 servings) to the Oregon Food Bank and Food For Lane County.
